

ABBREVIATED CURRICULUM VITAE

Allan Taylor

Summary

Allan Taylor is clinical head of unit of neurosurgery at Groote Schuur Hospital and an Associate Professor at the University of Cape Town. After completing his neurosurgery training in 1995, he focused his work and research on skull base, as well as neurovascular surgery. Given the shift in the treatment of intracranial and spinal vascular pathology, Allan subsequently also developed expertise in endovascular approaches. With the encouragement and help of Pierre Lasjaunias and Karel ter Brugge he established an endovascular fellowship program in South Africa. Under his leadership practical training is provided and research actively encouraged.
